

## PRESS COMMUNIQUE

08 February 2026

### Operational disruptions to and from Rodrigues

Air Mauritius informs the public that its operations to and from Rodrigues are currently experiencing disruptions due to fleet availability constraints.

Out of the four ATR 72 aircraft operating within the network, only one aircraft is presently available to operate flights to and from Rodrigues. One aircraft is undergoing its mandatory C-Check maintenance, another is under regular maintenance, while a third aircraft has been grounded in Rodrigues since yesterday following a technical issue.

Air Mauritius' teams are closely monitoring the situation and working to restore normal operations as swiftly as possible. Affected passengers are regularly kept informed by our Call Centre.

Air Mauritius apologises for any inconvenience caused by this situation and reiterates that the safety and security of its passengers and team members remain its absolute priority.
